

**Dr. Kohei Satoh**  
**Secretary General**  
**5GMF**

Dr. Kohei Satoh joined the Nippon Telegraph and Telephone Public Corporation (NTT) in 1975, and transferred to NTT Mobile Communications Network, Inc. (NTT DoCoMo) in 1992. He has been engaged in the research on radio propagation for satellite communication systems, research and development of mobile satellite and mobile communications systems since 1975. After 1985, he has been also engaged in standardization activities of mobile satellite systems in ITU-R and international alliance activities for IMT-2000. He has been a President and CEO of DoCoMo Communications Laboratories Europe GmbH in Munich, Germany, in 2000 to 2002. In July 2002, he joined Association of Radio Industries and Businesses (ARIB), and is now an Executive Manager on Standardization. His current job is to promote standardization activities on IMT including IMT-2020. He is currently Chairman of Asia-Pacific Telecommunity Wireless Group and Secretary General of the 5<sup>th</sup> Generation Mobile Communications Promotion Forum (5GMF).
