

Dr. Kejun Wei

Chief Engineer

China Academy of Information and Communication Technology

Dr. Wei is currently researching areas that include 5G mobile communication and wireless networks. He devotes his time to promoting the research and development of 5G industrialization and standardization. He is currently the deputy leader of Wireless Technology Working Group of IMT-2020(5G) Promotion Group.

As China 5G Technology R&D Trial leader, he promotes industry to complete the first and second phases test of China 5G R&D Trial in 2016 and 2017.
